Summary

I am a Games Design MSc student, who recently graduated with a first in Games Design BSc (Hons). I have immersed myself in the world of game opportunities, like taking part in multiple Global Games Jams and winning the Ukie Student Games Jam 2025. I have lead teams and co-ordinated efficient workflow to tight deadlines both within my university modules and in personal projects. I was also elected finance manager and then president for a university society; I had a large part in planning many events and keeping members consistently interested.

Education

Games Design MSc

09/2025 - Present
